CZAR PLACES CROWN LANDS AT DISPOSAL OF PEASANTS BUT IT HAS NO EFFECT

Extraordinary Measures Taken to Preserve Order and Martial Law May be Proclaimed

Threats to Exterminate Jews of Warsaw Have Thrown Jewish Quarter Into State of Panic and People are Fleeing--Assassin of General Escaped.

Washington, Aug. 28.—The state department was informed by cable from Spencer Eddy, charge d'affaires at St. Petersburg, this morning that the czar has decided to place \$4,500,000 acres of crown lands in the provinces of Archangel and Zolodga at the disposal of the peasants. The czar's decree to grant crown lands to the peasants, says a press dispatch from St. Petersburg today, has not made the slightest impression. The peasants expected to receive the land gratis instead of having to pay a comparatively small sum for the property.

St. Petersburg, Aug. 28.—Extraordinary measures have been taken to preserve order in the empire. The situation owing to the wholesale assassinations of prominent officials at various places, is acknowledged to be of the gravest character and strong patrols are found everywhere. Persistent rumors are afloat today that martial law will be proclaimed, although the council of ministers has definitely declined to adopt the proposition for dictatorship.

St. Petersburg, Aug. 28.—Threats

to exterminate the Jews of Warsaw have been made by the soldiers of the Polish capital in revenge for the killing yesterday of General Wonslariski, who was shot down in his carriage by an unknown man supposed to have been a Jew. As a result of these threats the Jews are in a panic and many are fleeing the city.

This is the information contained in dispatches arriving here this morning. There seems to be plenty of authority for the reports that a massacre of Jews is probable, and further news from the city is eagerly awaited. The death of Wonslariski has aroused the soldiers to a point of fury. They insist Jews are responsible for his murder. All efforts to apprehend the man who fired the fatal shots have proved futile. In the Jewish quarter the greatest alarm prevails.

Many Jews have already fled from the city, fearing the wrath of the soldier will be visited upon them and others are preparing to fly. Those who remain have banded themselves together for protection and are prepared to sell their lives dearly.

STANDARD OIL

Indictments by Chicago Grand Jury—Each of 6428 Courts Covers an Alleged Offense.

Chicago, Aug. 28.—The two grand juries which investigated relations between the Standard Oil company and railroads reported 10 indictments. Each of the 6428 counts in the 10 indictments covers an alleged offense, and is based on a tank car shipment of petroleum products from the refineries at Whiting, Ind. According to a statement issued after the indictments were returned from the office of the United States district attorney these shipments were carried by the following roads: Chicago, Burlington & Quincy, Chicago & Alton, Chicago & Eastern Illinois, Evansville & Terre Haute, Illinois Central, Southern, and Lake Shore & Michigan Southern.

TAGGART FOR BRYAN.

New York, Aug. 28.—Thomas Taggart, chairman of the national Democratic committee, is strong for Bryan. Whether Bryan is for Taggart is another matter, but it is not bothering the genial Hoosier politician, who is chaperoning the Indiana contingent to the Bryan demonstration. "Are we for Bryan? Well, I should say we are. So is everyone else—at least everyone in Indiana," was Taggart's reply to the interviewers. "Why, out our way you never heard any other name except Bryan's and you are not going to hear any other. Will I resign the national chairmanship? Well, I guess not soon. I like the job."

COMER WON.

Result of the Democratic Primaries Down in Alabama.

Montgomery, Ala., Aug. 28.—The Democrats of Alabama selected candidates for state officers by a primary and also voted for two candidates for United States senator. Owing to the great age of the present senators from Alabama, who had no opposition to re-election, two candidates for alternates were voted for. These alternates will be appointed by the governor or elected by the legislature in case of the death or disability of the present incumbents. For governor B. B. Comer of Birmingham was nominated over Dr. R. M. Cunningham of Ensley by a majority estimated at from 5,000 to 8,000. For lieutenant governor H. B. Gray of Birmingham and D. J. Meador of Myrtlewood are in the lead, the returns at hand being insufficient to name the winner. For United States senator John T. Morgan and Edmund W. Pettus had no opposition.

"Another Backer Ship Fails" is the headline in an Illinois paper, but suppose Kentuckians will take the news philosophically.

RECEIVERS

Are Appointed by the Circuit Court for Toledo, Ann Arbor and Detroit Electric Railway.

Monroe, Mich., Aug. 28.—Judge Lockwood in circuit court appointed Willis Baldwin of Monroe and R. H. Burgoon of Fremont, O., receivers of the Toledo, Ann Arbor & Detroit electric railway, which is partly constructed between Toledo and Ann Arbor. The receiver was appointed in response to a petition filed by Gorman Brothers of Toledo, O., who constructed a power house for the road at Petersburg, Mich. It is alleged that the financial difficulties which led up to the receivership involve the disappearance of about \$300,000 worth of bonds issued some time ago. The Toledo firm in the bill of complaint says that about \$300,000 was put into the road, and that no work has been done since last fall owing to the disappearance of a large number of bonds, and asks a receiver to protect all parties interested in the road.

Died in Depot.

Indianapolis, Ind., Aug. 28.—L. B. Lyday, a commercial traveler of Bucyrus, O., was stricken with heart failure while standing in the Union station here. He fell to the floor and died within a few minutes.

LEMONS ARE HIGH

Four Cents a Pound at San Diego Being Highest Price Paid in Five Years.

San Diego, Cal., Aug. 28.—The cash price of lemons is at highwater mark, 4 cents a pound. This is the highest price obtained here in five years for fresh fruit picked from the trees, although 3 and 3½ cents per pound was paid in previous years.

Train Wrecker Captured.

Hobart, Okla., Aug. 28.—An attempt was made to wreck a Rock Island passenger train between Gotebo and Hobart. The wrecker was captured and brought to jail here. Loose ties were piled on the track, but the engineer saw the obstruction and stopped his train just in time. A man hiding beside the track started to run, but was overtaken by the trainmen, to whom he gave the name of Charles Combs.

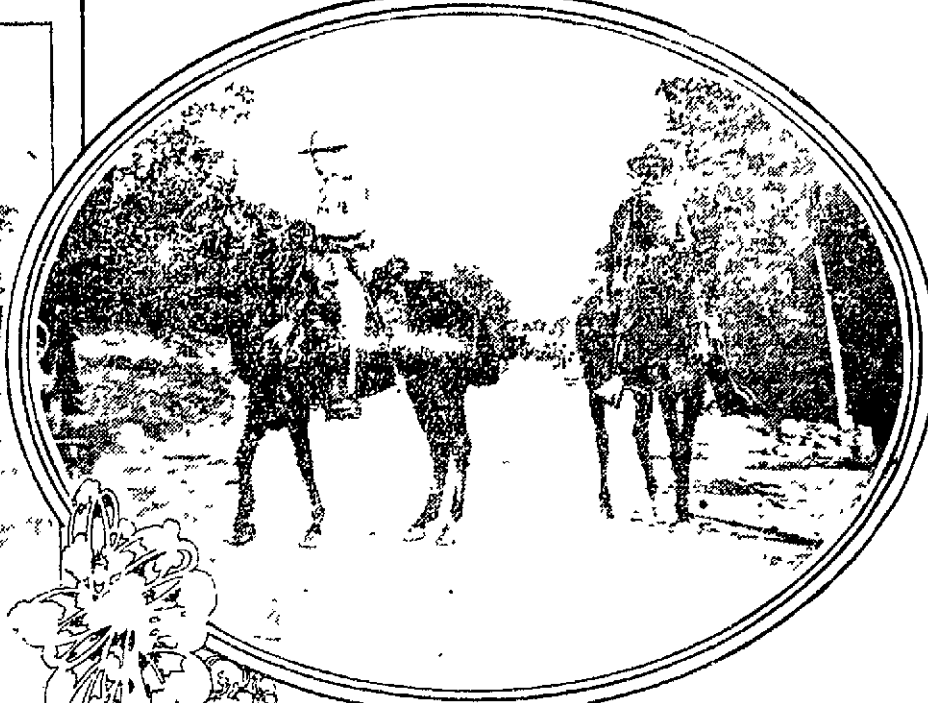

Colored Troops at Fort Reno.

El Reno, Okla., Aug. 28.—The twenty-fifth colored infantry reached Fort Reno from Brownsville, Tex., following the instructions of army authorities as a result of recent trouble at Brownsville. Orders were issued that no troops visit El Reno without a pass. The camp is quiet.

THUMB PRINT IS ONLY CLUE TO THIS MURDER

New York, Aug. 28.—A "Jack the Ripper" murder was committed in the Bowery district this morning and the only clue to the murderer is a bloody thumb print. The victim of the ripper's knife is Anne Moore aged 48 years, who for years lived unlawfully with her brother-in-law, James Moore. The police say that Moore's wife is living. Moore was arrested because he told conflicting stories. He is a consumptive who long ago quit work because Anna supported him with money made by means known to every Bowery habitue. The police think he may be the "Ripper" and today an imprint will be taken of his thumb. Blood traces were discovered on his fingers.

The police today discovered in a dresser in the woman's room, where she lay, three life insurance policies of the Prudential. One of the policies, for \$275 was made out in the name of Mrs. Annette Moore, and was made payable to James Moore, who is now under arrest. Moore was photographed at police headquarters today and closely examined.

MRS. LONGWORTH PRESSED BUTTON

WHICH FORMALLY OPENED THE
FIFTH FAIR FESTIVAL IN
CINCINNATI TODAY.

One Feature Will Be First American
Performance of Blue Moon,
Noted in London.

Cincinnati, Aug. 28.—Cincinnati's fifth fair festival was opened by Mrs. Alice Roosevelt Longworth at ten o'clock this morning by pressing a gold button placed upon the balcony of Music Hall. The golden button yielded to the pressure of her finger and the electric current sped to a great chime of bells which crown the "Bridge of Smiles," and heralded the formal opening of the festival, which continues for four weeks. The last peal of chimes witnessed the throwing open of the gates of "Joyland" and the doors of Music Hall. "Joyland" is located in Washington Park while Music Hall will be devoted to the industrial exposition. One of the features of the festival will be the first performance in America of "Blue Moon," a noted London production.

PHONETIC SPELLING.

Geneva, Switzerland, Aug. 28.—President Roosevelt's unexpected adoption of the phonetic spelling system for official documents is the chief topic of conversation among the 150 delegates in the international conference which opens tonight to advance the cause of the universal language. Esperanto, designed to enable natives of all countries to converse on a common tongue. The general impression among the delegates is that this sudden boost given phonetic spelling cannot fail to advance the cause of the Esperanto language.

MR. LEACH'S BENEDICTION ON RECORD WILL BE HEARD AT PREACHER'S FUNERAL

FAIRFIELD, ILL., Aug. 28.—If the wishes of an old man are complied with at his death, the unusual feature of a man delivering his own funeral benediction will be presented. The Rev. Daniel Bassett Leach, aged 89, of Bone Gap, Ill., 20 miles east of this place, has requested that the concluding act and ceremony of his funeral shall be the rendering on a talking machine of a benediction composed by himself. The Rev. Mr. Leach has been a Methodist clergyman for more than 70 years, and has been noted for the length of his prayers. He has recently had placed on a record his favorite benediction, which he is wont to deliver in a stentorian voice that can be heard two blocks away.

GOULD IS MOVING A WHOLE TOWN

TOPEKA, KANS., Aug. 28.—Cra J. Gould today began the work of moving the town of Englewood, Clark county, one mile south of its present location. The Kansas town is in the center of Gould's 21,000 acre ranch, and the quarter section on which it is located has a clouded title. It has a population of 450 and the new site of 240 acres is a gift of Gould.

SYRIAN HAS SEVEN YEAR ITCH AND NOT LEPROSY AFTER ALL, IT'S SAID

Elkins, W. Va., Aug. 28.—Geo. Rashid, the alleged Syrian leper, who was taken from Parkersburg to a small building has been elected by the authorities of Randolph county, Pickens, Randolph county, by the B. & O. officials and dumped beyond their right of way a few weeks ago. Rashid is a report current that Rashid has been pronounced by Dr. Cunningham to be suffering from an acute leishmaniasis.

STEAMER MACKINAC TO RESCUE ALL ON BOARD ARE SAVED

Detroit, Mich., Aug. 28.—Fire on the way responded. Everybody on the wooden freight steamer Charles E. Eddy, in Lake Huron, off Port Huron, this morning burned. The steamer to the pier's edge. Twenty persons were on board, including the captain and two little daughters. The boat was a leak and the crew were discovered. The Mackinac, five miles west of the boat, was called to the rescue. The Mackinac, five miles west of the boat, was called to the rescue.

His wife, who resided in Baltimore, was charged with the crime of robbery.

BIG SALMON CATCH

Commissioner Bowers Saw One Haul in Which 145,000 Red Salmon Were Taken.

Washington, Aug. 28.—Commissioner Bowers of the bureau of fisheries returned from Alaska, where he went to inspect fisheries. He was in company with Solicitor Sims of the department of commerce and labor, who reported the haul made on the seal rookeries by the Japanese sealers with results so disastrous to themselves. Bowers declined to comment on the incident. Mr. Bowers says the catch of red salmon in Alaskan waters this season will be as large as it has been in any season for many years. He saw one haul in which 145,000 red salmon were taken.

Tanksley Out of Jail.

Bedford, Ind., Aug. 28.—Ernest Tanksley, who was arrested at Evansville a few days ago, brought here and locked up a charge of wife desertion, was released on bond furnished by his mother and her friends. Tanksley and his mother left for Heltonville, where the aged woman owns a small farm. Nothing further developed in the endeavor to connect Tanksley with a more serious charge.

ARBITRATION

Of Troubles in Cuba is Now Proposed by Insurgent Leader Guerra

HE DEMANDS NEW ELECTION

BLAMES PALMA FOR MANNER OF CONDUCTING LAST ELECTION

Says Insurgents Will Not Trust Promises Made by Palma and Will Not Compromise

Havana, Aug. 28.—Arbitration of the troubles which led to the revolution in Cuba, on the basis of a new presidential election, with the United States, is desired by Colonel Pino Guerra, insurgent leader in Pinar del Rio province as a means of ending the insurrection. If the new election is not given, Guerra says his forces will stay out indefinitely. Guerra's desire to arbitrate with the United States was expressed to the correspondent of the Scripps-McRae Press Association who visited him in his own camp. He talked freely of the causes which drove him into the field against the government, blaming President Palma for having conducted the last election in such a manner that the people had no chance to express their wishes.

If there is to be arbitration, Guerra declared, it must be with the United States or some other outside power. The insurgents will not trust the promises from Palma and will never accept any offer to compromise with him.

The foreign element, including many Americans, criticizes the offer of amnesty as a weak and disappointing action, showing a desire for peace at any price and a willingness to sacrifice the possibility of future security to a present expediency.

Alfred Zayas, head of the Liberal party, says there is no truth in the report that Vice President Mendez Capote consulted with him on the question whether peace could be restored by President Palma's withdrawal from the presidency and permitting Mendez Capote to succeed him, and by giving certain posts to the Liberals, which consultation was said to have caused grave difference between the president and vice president. Zayas says the insurgents probably would not consider such a settlement under any circumstances.

That the insurrection is in a shaky condition seems to be a fact, although the end may not be as near as members of the government profess to believe. Ex-Congressman Faustino (Pino) Guerra, the insurgent leader operating in the province of Pinar del Rio, in a signed statement declares that he is as determined as ever that the last presidential election shall be annulled before there can be peace in Cuba. That Guerra's force of 2,000 men is well armed and supplied with ammunition and food is verified. Its greatest drawback is the lack of money, but the people of the western part of Pinar del Rio are furnishing all supplies needed, taking in return therefor orders on the "Cuban government," and in many cases refusing to accept any consideration.

Senator Dolz, a leader of the Moderate party, at the conclusion of a conference with President Palma stated that practically all the insurgent leaders of consequence, except Pino Guerra, signified their willingness to disband their men if all were positively guaranteed immunity for their insurrectionary acts. On account of information of the insurgents' willingness to quit the field there will be no further enlistments. Colonel Valle of rural guards wired the government that he defeated an insurgent force under General Guzman near Cienfuegos, killing 17 insurgents. The loss to the rural guards was one man and four horses.

Rural guards arrested several prominent Liberals, including two editors of Manzanillo, province of Santiago, who are charged with conspiracy. It is said they were about to organize an insurgent band in the province of Santiago.

Child Outraged.

Cuba, Aug. 28.—The five-year-old daughter of Edward Abright, a farmer near Bertrand No., was assaulted by Charles Goforth, a farmhand employed by her father. Goforth was charged in the Mississippi river by a farmer headed by Al. Goforth, who was charged with the assault. Goforth was taken to Charleston, S. C., and is now in a prison hospital.

EXTREMELY SMALL HATS ARE MUCH IN VOGUE.

The larger hats seem to grow larger, over the forehead imaginable. The while the small hats need be almost to the vanishing point, is the way that one building expert sums up the new season's models. Anything much smaller that could still claim to be included in the headwear catalogue, could hardly be devised than the example of a tailored chaparran that is becoming a headpiece. Felt, chenille and velvet are incorporated in the head, of which it is fashioned, the foundation being the metal wire frame that determines the style, shape and finishings of the ordinary chaparran. One hardly knows whether to classify the result as a turban or a sailor. There is a round crown, a brim that flares a trifle in the back to shrink to almost over the forehead imaginable. The bands are in brown, one of the dark shades that approach nearer to the earth browns than to the seal tints. On this there is a bow of turquoise blue velvet, fashioned from the piece rather than the ribbon weave, with the upstanding "ears" well wired to hold their shape and position. A broad grouse's wing is cleverly posed at the left side, so that it covers the entire brim at that point and a part of the crown as well, while the back is filled in with pale blue velvet and brown malineite, cleverly mixed to a frothy result. While originally intended to be included in the tailor-made catalogue, this little shape is developed to a degree of dressiness in the trimming that will make it suit-

Dr. Sook's Mishap.

Dr. O. P. Sook while driving through an alley near Sixth and West Main streets Monday afternoon met with an accident which might have resulted seriously. Dr. Sook was passing the Edwards auto garage just as a man named Wilson was driving rapidly through from another direction. The man was intoxicated and drove recklessly against the doctor's carriage overturning it and throwing the horse. The doctor was thrown to the ground but fortunately escaped injury.

An Odd Accident.

A peculiar accident happened on West Main street at 8 o'clock Tuesday morning which fortunately resulted in only slight damage. A brewery wagon was passing east along the double tracks and switch near the square and was being closely followed by one of the Fleck & Neal delivery wagons, the driver of which attempted to pass around the brewery wagon by crossing the track. The feet of the horse slipped upon the car track and the animal was thrown completely out of the shafts, while the wagon itself continued on its way, coupling onto the rear of the brewery wagon.

Hunt by Fall.

Miss Mary Martin, residing at the home of Dr. Dalton H. Miller on West Main street, met with a painful accident Tuesday afternoon which may cause her some inconvenience for some time. Miss Martin tripped on a water pipe, striking the right knee on the brick walk in the rear of the Miller residence. It was feared for a time that the leg was broken, but upon the arrival of Dr. Miller it was learned that the young woman had sustained only a very severe bruise, which, although painful, is not serious.

Picnic at the Park.

A most enjoyable picnic was held Saturday at Idlewild Park. A party of seventeen went to the park with well filled baskets and enjoyed a picnic dinner and supper. Those present were Mr. and Mrs. Oakleaf and daughters, Jessie and Della, Mr. and Mrs. Austin Oakleaf and children, Helen and Mary, Mr. and Mrs. Frank Oakleaf and children, Frederick and Harry, Mrs. George Baker, Miss Pauline Smith, Miss Mary Sam, Miss Mae Lamps and Miss Lydia Smith. A Former Infidel Will Speak.

A recent convert to Salvation Army in Chicago who was for many years an infidel, will address the meetings in the tent on Sixth street tonight at 8 o'clock. The speaker refuses to allow his name to be used in the announcement of the services saying that he wants all the honor and glory of his efforts to go to his Savior. The speaker extends an urgent invitation to all to come and hear his life's story. Rev. L. C. Sparks of the First M. E. church will address the meetings Wednesday night. Members of the church will assist in the singing. All denominations in the city are invited to attend these services.

Runaway Horse.

A horse belonging to Mr. Herman Eisner, the grocer of Buckingham street, became frightened at some children who were playing near him Tuesday afternoon and ran off. The horse, after passing over and between a number of the city water pipes lying in the street, ran south to Granville street and in making the turn at the corner, slipped and fell against the horse and delivery wagon of T. A. Fulk, which was hitched in front of the Fulk grocery on Granville street. Mr. Fulk's horse was thrown to the street and badly scratched while his delivery wagon was put out of commission. The runaway horse was caught and it was found that he was badly bruised and cut, while the shafts of the spring wagon to which he was hitched were broken. Mr. Fulk's horse was so badly injured that he could not be driven Tuesday.

Also, no card is presented at your office on this day a moment's warning. Respectfully, JAMES LINEHAN.

WORK BEGINS ON PATROL STATION

NEW BUILDING STARTED BY THE CITY ON NORTH FOURTH BY FIRE STATION.

Plans Call for Completion in Sixty Days—Mr. Wm. Dahmke Has the Contract.

Actual work was commenced today on the new Police Patrol Station which will be located on the city's property in the rear of the Central Fire Department building, facing on North Fourth street. One or two sheds which have been used by the city will be torn away to make room for the new building. It will front on Fourth street and extend along the alley 48 feet. Contractor William C. Dahmke, who was the lowest bidder for the work and who was awarded the contract, is now in charge of the work. The contract calls for the completion of the work within 60 days.

The plans for the equipment of the building and the installation of the telephone system have not yet been completed by the safety board. It has about been settled to purchase a wagon for two horses. An auto patrol was considered but passed up as not the thing for the present requirements. It has not yet been decided just what system of patrol will be used, but it is understood that wires from one of the local telephone exchanges will be used.

Chilcote & Jones are making rapid progress now with their new building just north of this site for the patrol station. The first building is erected up to the second story and excavation is being made for the block to go up between it and the Union block. This new structure about to be started will consist of two store rooms each 25 ft. wide with dwelling apartments on the second and third floors.

Pitzer went over to Columbus Monday and made the semi-annual settlement with the state treasurer, paying into the state treasury the sum of \$6,021.63, that being the state's apportionment of the tax collection in Licking county.

Total Tax Collection.

The total amount of taxes collected in Licking county for the six months ending July 31, 1900 amounted to \$321,246.20, divided as follows: County fund, \$19,847.16; bridge, \$13,826.67; infirmity, \$1,255.64; Children's Home, \$1,400.77; judicial, \$7,541.84; special road, \$2,514.14; road, \$316.53; dog tax, \$62.26; township, \$19,871.77; corporation, \$59,487.73; school, \$104,929.52; building, \$7,541.84; refunders, \$222.92; soldiers', \$2,262.56; treasurer's fee, \$2,019.97; liquor tax, \$46,564.44; sinking, \$9,678.62; auditor's fee, \$1,411.50; cigarette, \$435; state, \$16,971.83; uniform account, \$52.08.

Of the \$16,974.83 due the state, \$6,021.63 is retained for state purposes and the balance comes back to the county for school purposes.

In Common Pleas.

Jacob Clyde Montgomery has commenced suit in the Common Pleas court against H. Dean Ashbrook. The plaintiff says that on July 12, 1900, he entered into a verbal contract with Perry M. Ashbrook, and the defendant, H. Dean Ashbrook, whereby they were to become partners in the hay, grain and coal business, the plaintiff paying to them \$1350. Plaintiff says that it was agreed that in the event that any of the parties should desire to terminate the contract of partnership at the end of the year, that defendant and Perry M. Ashbrook should pay plaintiff \$1350. Plaintiff says that on March 2, 1900, the warehouse at Johnstown was destroyed by fire, and the \$350 insurance was divided between them; that it was agreed that the loss of \$600 less the \$250, should be shared equally between them, and that \$350 should be deducted from \$2000, the value of all the warehouse, leaving the warehouse remaining of the value of \$2400. Plaintiff says he retired from the partnership on March 1, 1900, and that there is due from H. Dean Ashbrook \$600, with interest on the same, for which he asks judgment. Fine Red Apples.

Mr. G. O. G. has brought to the Advocate office some specimens of red apples that are unexcelled in beauty and quality. One variety, the French Rambur, is moderately acid and slightly, and the other, Moore's head's Favorite, is sweet and juicy with a rich flavor. The apples are about the medium in size and are especially handsome in shape. Mr. Moore's orchard is situated on a high elevation between Elm Ridge and Brownsville. It was planted some eight years ago and the splendid crop of fine fruit its owner is proud to show to the public.

The varieties of apples are best to be had from September 1 to October 1.

RAILWAY MEN MEET

Washington, Aug. 28.—The railroad law became effective today.

The event was signalized by a public conference of representatives of the New England and Central railroads with those members of the interstate commerce commission now in the city. Messrs. Knapp, Cockrell, Clements and Lane.

It was the first skirmish in the battle of wits which is now in issue. The commissioners are determined the railroads shall interpret the law according to their own lights, and take the consequences of a mistake is made.

The railroad representatives want an interpretation of the various mooted questions by the commission so as to be guided and protected by it if differences should arise. About fifty railroad men were present when the informal meeting was called by Charles Knapp today. Mr. Caldwell, vice president of the Delaware, Lackawanna and Western, asked for an extension of time for filing of schedules.

Asked that the present methods of posing tariffs be continued to continue, demanded regulations in the matter of building expert and expert rates and brought up technical questions bearing on the convenience in the so-called joint rates. He expressed a hopeful opportunity for a free discussion at a formal hearing to be given.

Free reported from Iron Mountain, Mo., that the railroad men are in a state of excitement.

TAINTED MONEY.

One of the life insurance saints who helped to elect Roosevelt by contributing the money of the policy holders to the Cortelyou war chest in 1904, now says that the directors of the international policy holders' committee are mere "dirt" and "small potatoes." It is a noticeable fact that all these big corporation contributors to the Republican campaign funds have been getting quite defiant since Congress adjourned without passing the bill prohibiting them from putting up their money to debauch and control elections.

The Columbus Dispatch reproduces this from the Steubenville Herald-Star, the property of former Congressman James J. Gill of the Sixteenth district and the organ of the Republicans of Jefferson county: "Boss Cox is said to be stirring up labor troubles in Congressional Longworth's district so as to get even with his illustrious father-in-law. If Boss Cox should succeed in defeating Longworth he will make of the congressman a very prominent figure and nothing could probably stop his nomination for governor next year." "Illustrated" father-in-law is pretty good, even if it be a slip upon the part of the linotype operator. Few men have been more illustrated than Congressman Longworth's father-in-law.

The Dayton Daily News says: "The editors who write that it is time for 'sober reflection' must be Prohibitionists or they would understand that there can not be any other kind of reflection." That's what you may call a fact and run no risk of being disputed. It's when a man gets sober that he indulges in reflection.

The Krupp gun works in Germany were never so busy as now and have orders for 2,700 pieces of artillery from eight different governments. In time of peace they are preparing for war and talking of disarmament.

A few days ago wheat reached its lowest price in four years. Yet wheat is "protected" in the sacred tariff law by a tax of 26 cents a bushel. This is the way protection (so-called) protects the farmer.

Can President Roosevelt or any other Republican mention a trust that can be labeled as a "good" or even a "decent" trust?

Even a soda water business, sometimes fizzles out.

HERALD ENDORSES ASHBROOK

Wooster Prohibition Paper Comes Out With Strong Praise for Democracy's Candidate for Congress—Paper is Printed in Judge Smyser's Own Town.

Wooster, O., Aug. 28.—The Wooster Herald, one of the strongest prohibition papers in Northern Ohio, printed here at the home of the Republican nominee for Congress in the Newark-Wooster district, has just

HON. WILLIAM A. ASHBROOK.

come out in strong endorsement of Wm. A. Ashbrook, the Democracy's candidate for Congress.

The editorial statements in the Wooster Herald that "the Republicans failing to nominate a candidate known to stand for high moral ideals can expect little else than defeat at the polls this fall," and "The promise to secure appropriations for a few public buildings will not bolster up the intemperance and immorality of any candidate," have created consternation among Judge Smyser's friends here in Wooster. It indicates that both Smyser and Ashbrook will be brought into the limelight during the campaign, and that the personality of the two men is to be presented to the people of the district. Mr. Ashbrook's friends are ready for the light to be turned on. Following is the full text of the Wooster Herald's endorsement of Mr. Ashbrook. It counts for much:

"The Democratic candidate for Congress was circulating about Wayne county last Friday and Saturday, making the acquaintance of all voters, not only Democrats, but Republicans and Prohibitionists as well. Mr. Ashbrook's presence here has made a great many staunch friends for him in spite of the brief stay he was able to make among our people. He has a remarkably pleasing personality and those who come in contact with him feel at once that he is a man who can be trusted to represent them in the great national interests at Washington.

Mr. Ashbrook is about 40 years old, and thus far has been remarkably successful in all his ventures in business and politics, and has made a clean record.

He was born in Licking county, learned the printer's trade and is now editor and publisher of the Johnstown Independent, one of the most thrifty and able country newspapers in the state. He is also interested in other business, and has made a success in all his ventures. He is broad-minded and liberal in his views and opinions, and is equipped in every way to represent the district in the Congress of the United States. No one need hesitate to endorse him with his support, for he never proved recalcitrant to a trust. Mr. Ashbrook expects to visit the various sections of the county, and of course, will meet many of our people, who, we are sure, will find him a leader worthy of confidence. That Ashbrook will be elected there is little doubt, for this district under normal conditions would be strongly Democratic and this year there is a strong feeling against the grafting which the Republican officials have been carrying on, and which are being exposed and condemned by the press all over the country. The voters at large know that a change can be no worse than present conditions, and there is a chance for something better if the old grafters are "turned down."

There is another reason why this is a propitious season for Mr. Ashbrook's success. Ohio voters are greatly interested in moral reforms. That they are going to have what they want, was shown conclusively in

the election of Pattison for governor. The Republicans failing to nominate a candidate known to stand for high moral ideals, can expect little else than defeat at the polls this fall. The promise to secure appropriations for a few public buildings will not bolster up the intemperance and immorality of any candidate. With so many moral issues to be considered in the Lower House of Congress, our people want a man whose character and life have been in accord with such principles—such as W. A. Ashbrook.

That the Republican campaigners feel their weakness is seen by their method of appealing to the jealousy of Wayne county, because it failed to get the nomination for a former Holmes county man. Many Republicans over the district are thoroughly disgusted with the manner in which Smyser carried off the nomination. There was little choice in the matter, everything cut and dried. B. C. Dix, of this city, was secretary of the convention; can you guess how or why? And when it came to election, not even the force of voting was gone through with. The Columbus Star says: "Walter Irvine, of Newark, nominated Smyser for Congress, and upon motion of Melvaine of Tuscarawas, the nomination was made by acclamation. Smyser made a speech, thanking the convention, and the work being over in a few minutes the meeting adjourned and many of the delegates went to Wehrle park to see Newark defeat Lancaster in baseball." Evidently baseball was of more importance than the kind of candidate to be nominated. Mr. Ashbrook will be able to secure all and more favors from Congress than would Mr. Smyser. The friends of the former assert that he will be true to his trust and constituency, and will not promise the impossible simply to get into office. The only complaint we have against Mr. Ashbrook is that he does not belong to our party, but perhaps we better forgive him on that score, as there are also a great many others, good friends of ours, who have a like failing. That this district will be greatly honored in sending Mr. Ashbrook to Washington, we feel confident, and he will more surely represent in the truest sense the wishes and character of the people who make this district one of the best in Ohio, the greatest state in the Union.

"Balkan" is a Turkish generic term referring to a range or mass of wooded hills with pasture and meadow land on their slopes.

MANY REQUESTS

For Accommodations on Board the President's Yacht During Naval Review Next Monday.

Oyster Bay, Aug. 28.—Secretary Loch is being deluged with requests from all sorts of people and all parts of the country for accommodations on board the Mayflower during the fleet review next Monday. Some of the applicants offer to compromise on Admiral Evans' flag ship if they cannot be accommodated on the President's yacht.

"Dr. Mr. President," a hopeful young gentleman out west writes, "you no doubt remember me. I shook hands with you when you made your trip to the coast, and I thought I would like to return your visit. So will be in Oyster Bay on the third. I would so much like to see the grand fleet review and am sure that you will find accommodations for me on the Mayflower."

Others write to the secretary for rooms and board as well as for a reserved stand on the bridge of the Mayflower beside the President. All the applicants will receive a courteous turn down. The secretary has neither rooms, board nor reserved seats for the naval show to hand out. There is plenty of room, however, for all who wish to view the naval display on the bluffs of Center Island or on the sandy shores of Bayville.

Dainty an Open Port.
Washington, Aug. 28.—Mr. Miyake, the Japanese charge, called at the state department and advised Acting Secretary Adee that Japan will open Dally to the commerce of all nations after Sept. 1. It is to be a free port and no import or export duties will be levied on articles of commerce imported into or exported from Kwanloshu through Dally. From the same port ships of all nations will be permitted to ply and engage in traffic between Dally or Taiwan, as the town is now called, and all the ports of Japan that are open to foreign commerce.

BERNARD JAEGER

RESCUED BY AUNT

FOUR YEAR OLD LAD FALLS INTO BUCKEYE LAKE AND IS ALMOST DROWNED.

Little Fellow's Brother Was Rescued in Nick of Time There a Year Ago.

While visiting at the cottage of Albert Corrodi, Bernard Jaeger, aged 4 years, fell into the waters of Buckeye Lake Sunday afternoon, and would have drowned had not Mrs. Corrodi calmly pulled him out by the heel, when he rose for the first time. Considerable excitement was caused by the affair. Bernard is the son of Mr. Christopher Jaeger, president of the Columbus Ice company. He is a nephew of Mrs. Corrodi. Another of Mr. Jaeger's children fell into the reservoir last summer and was rescued just in the nick of time.

ST. PAUL BLAZE

Half Million Dollar Loss There—The Catholic Cathedral at Lincoln Burned Today.

St. Paul, Aug. 28.—The plant of the American Can company was totally destroyed by fire this morning. Loss \$500,000. The Heinz Pickling companies' distributing warehouse also was destroyed. Loss \$300,000. A two story tenement was razed, evicting a dozen families. The fire is under control.

Lincoln, Neb., Aug. 28.—Fire of unknown origin this morning destroyed the First church of Christ recently purchased by the Catholics and in process of remodeling into a cathedral. The loss is estimated at \$50,000. The loss is fully covered by insurance.

Father Agius, secretary to Bishop Bonarum said: "The fire unquestionably was incendiary. I believe a fanatic kindled it. We had been warned frequently that the church was in danger of being put to the torch."

TENT MEETINGS

Of Salvation Army are Very Successful, the Membership Having Increased Largely.

Rev and Mrs. Swartz the well known evangelists of this city, conducted the evening service at the tent meeting of the Salvation Army on the Sixth street lot Sunday night. The services were largely attended. The meetings have been very successful and the membership of the local corps has been enlarged to such an extent that Captain Wilson found it necessary to secure more convenient quarters. A room at 47 North Fourth street has been rented and after the closing of the tent meetings, the services will be held in the new hall.

It has also been arranged to hold a ramnake sale in this room during the winter months, where second-hand clothing donated by the citizens will be on sale.

ART WORLD'S EYE ON YOUNG RECCHIA

MICHAEL DADY

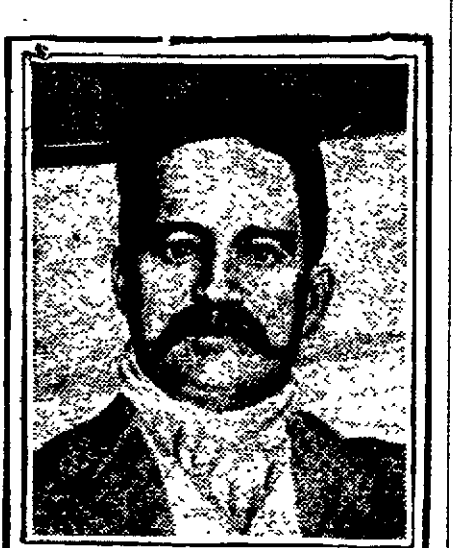

ARRESTED IN CUBA

BROOKLYN POLITICIAN HAD A CONTRACT FOR DREDGING CARDENAS HARBOR.

Government Officials Thought Dady and Party Were Filibusters Were Quickly Released.

Havana, Aug. 28.—Michael J. Dady a Brooklyn politician, has been arrested in Cardenas by government forces. Mr. Dady, accompanied by an official of the Department of Public Works, was making certain tests on his dredging contract in Cardenas bay. The government forces thought them filibusters and arrested and detained them for some time and then released them.

New York, Aug. 28.—Michael J. Dady was awarded the contract for dredging the harbor of Cardenas in

MICHAEL J. DADY.

April, 1901, for a consideration said to be \$550,000.

Early in 1904 he struck an asphalt bed in the harbor from which he expected to receive sufficient return to compensate him for his losses on the dredging work, which had not proved as lucrative as he had hoped.

This contract was looked upon as a bait for Mr. Dady for his failure to land contracts for repaving and constructing a sewerage system in Havana. After negotiations which lasted seven years the contract was awarded to another firm. Mr. Dady asserted at the time that he received \$250,000 in equity for the 1,000,000 that the contract was expected to pay.

Several times the Havana agreement was awarded to him, but as often rejected by the council or vetoed by the mayor. Mr. Dady protested to no avail, and even returned his bid, but finally lost.

Chas. W. Moore, a machinist of Ford City, Pa., had his hand frightfully burned in an electrical furnace. He applied Bucklen's Arnica Salve with the usual results: "a quick and perfect cure." Greatest healer on earth for Burns, Wounds, Sores, Eczema and Piles. 27c at Hall's drug store.

TOOK CHANCES ON TERRORISTS

THIRST FOR BLOOD SATIATED

Moderate Wing of the Revolutionists Renounces Attacks on Premier Stolypin—Girl Who Killed General Min Kept Herself Beyond the Surveillance of Police.

St. Petersburg, Aug. 28.—Te deums were sung in many cities for Premier Stolypin's escape from assassination. The premier received many telegrams of sympathy, but it is noticeable that these are from municipalities, houses and other official or semi-official organizations, and that the general public is not represented. M. Stolypin's daughter is still alive, but highly nervous from shock.

The supposition that the slayer of General Min was the "servant" of the party concerned in the Stolypin attempt was disproved, investigation showing that the woman lived under a false name with a peasant family in the village of Lusina since Aug. 16. The extraordinary police surveillance at Peterhof did not extend to Lusina and she escaped notice. She was brought to St. Petersburg in irons.

There is some dissension among social revolutionists over the decision to wage a war of terrorism against all officials, as is manifested in a proclamation by the moderate wing of the party, washing its hands of the attempt on the life of Premier Stolypin, which is attributed to the "flying group," young members of the party. In spite of the menace by terrorists against those high in authority, as evinced by the slaying of the acting governor, General Von Liarski, at Warsaw, Emperor Nicholas and the empress quitted the palace at Peterhof to attend a funeral mass over the body of General Min in the Peterhof camp. Precautions for protecting the imperial family were adequate, and they returned to the palace without incident. Several grand dukes and delegations from regiments in the St. Petersburg district were present.

TO HIGHER COURT

Chicago Counsel Carries Contempt Case For Consideration.

Springfield, Ill., Aug. 28.—James Hamilton Lewis, corporation counsel of Chicago, took the necessary steps for an appeal to United States circuit court of appeals in a case in which he was sentenced to 60 days in jail for alleged violation of an injunction issued by Judge Humphrey in United States court for the southern district of Illinois restraining any one from interfering with the operation of the Alton waterworks by the Farmers' Loan and Trust company, whose mortgage on the property was declared a prior claim. Lewis purged himself of contempt by withdrawing the suit. The United States supreme court decided that the case must go to the circuit court of appeals and not to the supreme court.

POSTOFFICE CLERKS

Form a Union Affiliated With the Federation of Labor.

Chicago, Aug. 28.—Representative postoffice clerks from six cities met here and formed a national union under the auspices of the American Federation of Labor. The organization, which will be known as the National Federation of Postoffice Clerks, is the first national labor union in the United States to be composed exclusively of government employees. Delegates were present from Milwaukee, Louisville, Nashville, Salt Lake City, San Francisco and Chicago. Several other cities, it is said, will be represented in the movement as soon as it is fairly launched. All of the branches that sent delegates to the convention are chartered by the American Federation of Labor as local unions, and the movement to start the national federation is said to have the approval of Samuel Gompers and his associates in the executive council. Formal application for a national charter was forwarded to Washington. The object of the federation is said to be to seek the adjustment of grievances by having the American Federation of Labor stand sponsor for remedial legislation, which government employees are prohibited from attempting to influence.

Automobile Mail Wagons.

Washington, Aug. 28.—Automobiles are to be substituted for one-horse wagons in the collection of mail from letter boxes in large cities. Baltimore is the first city in which a contract for collection wagons will terminate, and the first assistant postmaster general completed arrangements by which two specially constructed automobiles will be leased to make the experiment there, beginning Oct. 1. If it proves successful the automobile service will be established in other cities.

Melon Riots.

Boone, Ia., Aug. 28.—Three men and four boys were wounded, three perhaps fatally, in fights over raids on melon patches. A farmer named Coleman shot the four boys he thought were about to raid his melon patch. The three men, all farmers, were stabbed by a gang with whose members they quarreled for smashing melons on a farm.

CALLS ON DOCTOR FOR MEDICINE AND DROPS DEAD

FRANK CHONIER VERY SUDDENLY CALLED TUESDAY AT CROTON, OHIO.

DAUGHTERS OFF ON PICNIC

Having Left on Early Train Not Knowing Sad News Awaiting Their Return Home.

(Special to the Advocate.)

Croton, O., Aug. 28.—This morning while at the doctor's office getting medicine for a pain in the region of his heart, Frank Chonier, a well known Croton man, was seized with a fatal attack of heart trouble and died in the presence of his physician. It was about 7 o'clock that Mr. Chonier came to the office of Dr. Hempsstead and related his trouble. The doctor gave the man some medicine and accompanied him to the stable, where the doctor went to harness his horse.

Mr. Chonier seated himself on an up-turned basket in a corner of the barn and while the doctor's back was turned fell forward on his face. Dr. Hempsstead was horrified a few moments later to find the man dead. All efforts to revive the man were futile and his body was removed to the doctor's office and later to his home.

A particularly sad feature of Mr. Chonier's death is the fact that his two daughters, Jennie and Bessie, left a half hour before their father's death on a picnic on the T. and O. C. railway. The relatives at Croton have been unable to locate the daughters, thus far and they will hardly be reached before their return tonight.

Mr. Chonier was about 40 years old and has lived in Croton for many years. He has been employed as a laborer about town and is well known throughout this community. He is survived by his wife and the two daughters mentioned above. No funeral arrangements have been made.

WOMEN'S FREE DAY AT STATE FAIR

MONDAY, SEPT. 3, SET ASIDE IN HONOR OF OHIO'S PROGRESSIVE WOMEN.

Program For That Day Will Especially Appeal to the Fair Sex—Aerial Navigation.

An annual custom of the Ohio State Board of Agriculture that has yearly grown in favor is that of recognizing woman's worth as an important factor in the progression of the arts and industries of the state, by inviting them to be its guests at the Ohio State Fair on the opening date. Monday, September 3, has been designated as Woman's Free Day this year, and on that date the gates will be thrown open to the fair sex, and they are most cordially invited to pay a visit to the fair and inspect the magnificent exhibits and displays, typical of Ohio's progress.

The general program of the Fair for Monday, September 3, will be complete in all respects. Exhibition shows for premium awards will take place in the various live stock departments, while in the non-premium departments every exhibit or display will be ready for inspection by nine o'clock a. m. of that date. Band concerts by the leading musical organizations of the state will be featured, while Major R. H. Hendershot & Son, the most wonderful drummers and fifers in the world, will render a program of selections especially appealing to the fair sex. On the speed track three hotly contested harness events will occur, between the heats of which visitors will be entertained by feats of daring and skill, given by performers of sterling ability.

As a fitting climax to the wonders of the Exposition, A. Ray Knaben-shue will give two practical demonstrations of aerial navigation. His trip in the morning will include a visit to the city, concluding by rounding the dome of the State Capitol, the most daring and weird spectacle ever attempted by any navigator of the air.

Every line of travel will grant low rates and the largest attendance of any opening day is confidently predicted.

STRIKE NEAR CENTERBURG

Oil Struck at Depth of 2500 Feet on W. A. Barnes' Farm—Great Excitement Prevails.

Special dispatches to the Advocate from Granville, Appleton, Centerburg and Mt. Vernon Tuesday tell of important strikes in the Licking-Knox county gas and oil field. A good gas well has been found near Granville, a four million foot well has been drilled on the Clark farm near Centerburg, a five million foot well was drilled Tuesday morning near Appleton, and an oil strike near Brinkhaven has created no little excitement in that vicinity.

MILLION AND A HALF.
Granville, Aug. 28.—The Ruffner Bros. have just drilled a 1,500,000 foot gas well on the E. L. Jones farm four miles north of Granville.

GUSHER NEAR APPLETON.

Appleton, Aug. 28.—This morning on the E. C. Squire farm midway between Homer and Hartford, the Central Ohio Natural Gas company drilled in at a depth of about 2100 feet a five million foot well which is one of the best in this section. The well is three-quarters of a mile from any other well, and is therefore in what is regarded as new territory.

The Bennington company has a well about ready to come in on the C. F. Woodbury farm, but water has been struck and there is some delay until the well is cased.

ANOTHER GOOD ONE.

Centerburg, Aug. 28.—Considerable excitement was created here Monday afternoon when word came that the drillers who have been drilling the well on the L. Clark farm, several miles from this place, had tapped the sand and that the well had proved a gusher, being good for about four million feet of gas per day.

OIL IS STRUCK.

Mt. Vernon, Aug. 28.—Oil was struck at the depth of 2500 feet on the W. A. Barnes farm, one-eighth of a mile from Brinkhaven, Monday afternoon. The well was drilled by the Lima Oil company. Inspectors say that the well is a gusher and that the oil is almost as pure as refined.

Great excitement prevails, as this opens a new field in Knox county, and land for miles around is being leased at an enormously high rate.

There was but one game played in the O. P. league yesterday, but three of the teams in the Western end of the circuit played exhibition games in the smaller towns. Newark played out the amateurs there by a score of 4 to 0. Lancaster defeated Athens 5 to 0, and Mansfield defeated Ashland 8 to 3.

Champs Lose Once More.
Akron, Aug. 28.—The home team won yesterday over Youngstown. Jackson pitched good ball for the locals, while Castleton was touched up rather lively. The score: R. H. E. Akron 4, 0 0 1 1 0 0 1—3 8 1. Youngstown 0, 0 0 1 0 0 0 0—1 3 1. Batteries—Jackson and Ortel; Castleton and Fohl. Umpires—Layells and Long.

Two Games Today.
Newark went from New Straitsville to Lancaster where they have two scheduled games and two postponed affairs to get rid of. The present arrangements are to play two double headers with the Lanks and Lefty Snyder who worked successfully against the Nocks Sunday is scheduled to take his turn with the other pitchers in these games.

Joe Locke Quits.
Newark's old war horse, Joe Locke, has left. This perhaps is not news to the fans, but it is believed by the members of the baseball company that he will not pitch any more for the Newark bunch.

Locke's trick reminded the fans of the bull headedness of Teddy Purcell last year. The big pitcher got sore because he was taken out of Friday's Sharon game when that team was winning like a house a-fire from the locals.

Manager Snodgrass stated that his action was not taken because Locke was not master of the situation, but because the Newark team had a man on second base with two outs and Locke at bat. It was the first opportunity the Newark team had to score and if they had broken up the game right there, it was possible that the contest could be saved. Therefore, when Locke stepped to the plate, he was recalled and Snodgrass batted in his place. It proved that Snodgrass was equal to the occasion and his sin-

gle would have scored both Bally and Snyder but for the coaching of Berryhill. Had that been done, Snodgrass would have taken second on the throw to the plate and chances for a hit would have been better. That was why Pitcher Locke quit the team, packed up his duds and returned home.

Hogan Badly Frightened.
Our old friend, Marty Hogan, is losing lots of sleep these nights, and if these defeats follow one another with the same regularity during the next week that they have been in the past ten days, Hogan will be gray headed by the time the O. P. league season closes. Hogan told one of the league umpires Sunday while the team was at Tiffin that he had been working night and day trying to strengthen the Youngstown team. "For the past two weeks I have kept the telephone wires and long distance telephones mighty hot trying to get new material," said Marty. "I'll win that pennant, no matter what it will cost. I don't care for the expense, I must have the pennant."

Marty has sufficient reasons for fearing that he will lose the rag. That Akron bunch is drawing pretty close to the champs, only 29 points separating them. It would not cause much surprise to see Lancaster pull up under that first position before next month's games have been finished. Nearly all the teams have thirty more games to play besides the postponed games. A goodly share of the games won for Lancaster and New Castle and Marion would soon be out of the running.

Newark's Chances.
But while you are speaking about the chances of the other teams, it might be well to note that none of the positions in the league is cinched except Sharon's last place. Their case is hopeless and the Sharonites are to be admired for their loyalty to that losing aggregation. Newark is almost within hailing distance of the two or three clubs immediately ahead of them. It's true that thirteen games are between Newark and the new Marion team, but this lead could soon be overcome if the club plays consistent ball and Marion loses with the same regularity that they did at Zanesville.

ARRANGEMENTS FOR LABOR DAY

Committee to Meet Friday to Finish
Program for Celebration in
Newark, Sept. 3.

A short meeting of the Independent Labor Day committee was held Monday night at the Music Hall to make further arrangements for the celebration of Labor Day in Newark. It was decided by a unanimous vote not to allow any booths or stands on the streets or around the square during the day. It was also decided to have badges printed on ribbon for the use of the union men who participate in the celebration at home. All the merchants and manufacturers in the city will be asked to enter the parade with floats of any kind.

The final meeting of the committee will be held Friday night at 7:30 when all arrangements for the celebration will be completed. The program will be finished and arranged for the printers at this meeting.

"They deserve it," said one of the game fight men who have made for the championship under cupped conditions, and I not only have no objection to their engaging in such a contest, but shall encourage it in every way. I think it is a better thing than a series of games between two clubs in the same city, as I think it

it is better before the start of the championship series. In addition to that, there is always the possibility of a player being injured in such a series, thereby depriving the fans of his services and putting the team in a difficult position. I think it is a better thing than a series of games between two clubs in the same city, as I think it

vett. Mr. Orr is a member of Co. G, Fourth regiment of Newark. Since the last national contest Sergeant Orr has been doing good work with his rifle and his friends expect him to take a high rank again this year. He has also been practicing with a revolver and many believe he will get a low prize in the revolver contests.

Sea Girt, N. J., Aug. 25.—The big military shooting tournament of 1906 was inaugurated here yesterday, the opening event being the Columbia trophy match.

The mammoth camp is dotted with the standards of the several states. Late arrivals include the detachments representing Oregon, Virginia, Oklahoma, Massachusetts and the State of Washington.

Four regiments of the National Guard of the State of New Jersey are entered in the Columbia trophy match. The first prize is the Columbia Trophy, presented by the National Guard of the District of Columbia to the National Guard of New Jersey, to be competed for annually. The other three prizes are money.

At the conclusion of the firing in the 200-yards stage of the match the First Regiment was in the lead with a total of 248; the Fourth regiment was second, with 241; the Second regiment was third, with 237, and the Fifth regiment fourth, with 225.

The team representing the Fourth regiment National Guard of New Jersey was victorious in the Columbia trophy match, while the company team match was won by the team representing Co. H, Sixth Massachusetts regiment. The best individual work in the Columbia trophy match was done by Private Minervino of the winning team, who attained a total of 153.

A great part of the shooting was done while rain was falling.

It Interviewed.
Seoul, Aug. 28.—In an interview Marquis Ito, the Japanese resident general, said many Japanese want to annex Korea to Japan, but the emperor of Japan and Marquis Ito want to restore its independence as soon as Korea is strong enough to defend herself. The Marquis added that Japan could not allow another nation to attain predominant power in Korea, but all nations are to enjoy the open-door policy. Marquis Ito said he hoped in time to bring Korea into a state which will satisfy all nations.

Long and Bitter Fight.
San Francisco, Aug. 28.—Indications are that the strike on the United railroads will be long and bitter as evidenced by the statement of Patrick C. Hannon, president of the corporation who arrived here from the east. C. Hannon was asked if there was any prospect of arbitration and replied: "The men are no longer in the employ of the company. I will run the roads, and if necessary bring out 2,000 men from the east to do it."

Conference Closed.
Rio de Janeiro, Aug. 28.—The international conference on the subject of the National Guard of New Jersey was closed yesterday. The conference was held at the Hotel de Ville, Rio de Janeiro, and was attended by representatives of the National Guard of New Jersey, the National Guard of the United States, and the National Guard of the State of New York.

Quarrel Ended.
Oshkosh, Wis., Aug. 28.—A quarrel between two men, which had been going on for some time, was ended yesterday. The two men, who were both members of the same club, had been fighting for some time, but were finally reconciled.

BUCKEYE BREVITIES

Police Chief Killed.

Greenville, O., Aug. 28.—Chief of Police William Marker, 42, was killed in an effort to capture a prisoner who was trying to escape. He arrested Gus Griffith and was bringing him to town on a streetcar when Griffith sought to escape by a sudden jump from the moving car. Marker followed, but in jumping slipped and struck his head on the brick pavement. His skull was crushed at the base of the brain. Death was almost instantaneous.

Withstood the Storm.

Lorain, O., Aug. 28.—The barge Tanny Nell, which was reported on the beach east of this port, safely rode out the storm and is at anchor at the spot where she was left by the steamer H. B. Tuttle. The Tuttle, waterlogged, was forced to abandon the scene and make for port to avoid sinking. The steamer arrived here safe but sank soon afterward. She will be lightered and raised.

Refused Possession of Son.

Xenia, O., Aug. 28.—The petition of Edward Conway, a Cincinnati man, to be given possession of his 3-year-old son, now an inmate of the Ohio Soldiers and Sailors Orphans' home, has been refused by the trustees. Conway a week ago tried to take his son away by force and shot at employees of the institution who barred his way.

Barge Burns.

Cleveland, O., Aug. 28.—Fire broke out on the barge Agnes Potter in tow of the steamer Rhoda Stewart, a few miles off this port. A heavy sea was rolling and the barge broke away from the steamer and went on the beach. Her crew was taken off by the lifesavers. The barge will be a total loss.

Child Cremated.

Cincinnati, O., Aug. 28.—Mary Calloch, 4, was burned to death while playing around the cook stove. Her mother was terribly burned while trying to extinguish the flames which enveloped the child and burned off her clothes.

Two Girls Drown.

Loveland, O., Aug. 28.—Miss Malen, 16, and Miss Hill, 16, whose home is at Mulberry, were drowned in a swollen stream near the Good Luck farm, on the Goshen road.

Charge Against Postmistress.

New Philadelphia, O., Aug. 28.—Charged with sending forbidden medicine to a girl living at Cadwallader, at the request of her brother, Mrs. Sarah Starkle, postmistress of Fremont, Harrison county, and wife of a druggist, has been arrested and later released under bond. Sheriff Maylow also has a warrant for the brother, but thus far he has not been found.

Dying From Nosebleed.

Columbus, Aug. 28.—Byron Leonard was brought here from New Straitsville, Perry county, yesterday, and taken to St. Francis Hospital in the hope of saving his life. He is dying from a nosebleed. Last Thursday he was at his home when he was seized by a nosebleed. A doctor was called, but the bleeding continued. All efforts at checking the flow of blood have failed.

Invited Milk Kills Baby.

For Aug. 28.—Gordon Stewart, a child of George Stewart, a milkman, was killed yesterday by a cow. The child was playing in a field when he was struck by the cow. The cow was killed and the child was buried.

DAYTON MAN IS TO BE COACH

PROF. ROHRER IN GRANVILLE
ARRANGING TO TAKE UP
HIS NEW WORK.

Newark Scholarships at Denison—
News Items and Personal
From Granville.

Granville, Aug. 28.—Prof. J. Rohrer, of Dayton, Ohio, who was recently elected to the position of physical director of Denison university, made vacant by resignation of Coach Stanton, was in Granville Saturday and Sunday. He was here looking for a house, and his family, consisting of his wife and two children, will move here this fall. While here Mr. Rohrer looked over the gymnasium and made the acquaintance of many of our people. It is said that the new director will give special attention to the physical training of young men.

As is generally known, Denison university each year grants two scholarships to graduates of the Newark High school, one to a lady and one to a gentleman, having the highest standing. Sherman Baggs, grandson of Mr. Frederick Koehndorfer, and nephew of Mr. Roe Emerson, of Newark, took the Denison scholarship in 1906, he having the highest standing in one of the largest classes ever graduated from the Newark High school. Miss Bertha Crilly, daughter of ex-Mayor A. J. Crilly, took the scholarship given to the young woman having the highest standing in the class. There are a number of other members of this class who will enter Denison this fall.

Rev. A. S. Carman has been attending Baptist associations for the past two weeks at Winchester, Cambridge, Youngstown, Auburn and Lena.

Mr. and Mrs. L. B. Thomas of Franklin county, who have been visiting relatives and friends in Granville and vicinity for some days, returned home Monday.

Rev. A. S. Carman occupied the pulpit of the Baptist church at Mt. Vernon Sunday, and preached two very able discourses.

Rev. T. G. Field, who has been attending Baptist Associations in Ohio and West Virginia, returned home Saturday.

W. A. Holmes, field secretary of the Ohio Baptist Sunday school work, has returned home from Adams county, Miss. Holmes and her little son remaining with Mrs. Holmes' parents for an extended visit.

Thomas Crawley, representative of a large wholesale house of Pittsburgh, was here Saturday.

Mr. Charles Guckert is having a fine veranda added to his residence, just east of the village. It is being constructed of tile and when completed will add much to the appearance of the house.

Miss Fannie Wilson of Bucyrus visited here last week.

Miss Mary Ferguson leaves Saturday for Croton where she will commence her new duties as teacher in the High school next week.

President A. B. Chaffee of Bishop college, Marshall, Texas, (one of the schools for the freedmen of the south) who has several children attending school here, has rented the Dixon property recently purchased by Mr. Lee, and his family will remove here this fall. Mr. Chaffee, will, of course, remain in Marshall as president of the college.

As has been the custom of Prof. C. L. Williams of Denison university, for a number of years to spend a season at Middle Bass Island in mid-summer, preaching to the members of the Middle Bass Island club, he performed that service Sunday.

Rev. J. L. Whyte left Saturday for Shelby, O., where he occupied the pulpit of the Baptist church on Sunday, filling the place of the regular pastor, who was absent on his vacation.

Oldest residents of Granville say they never knew so much rain during August, as there has been during this month.

Every man has a right to think for himself, work for his own interest and do a number of similar selfish things, but after all the things that give the most pleasure when looking backward is the road we have done others.

Col. Isaac DeWolf is visiting friends in Lorain. Before he returns he will visit a number of cities on Lake Erie.

Miss Mayme Geach, who has been visiting friends in Columbus for several weeks, returned home Monday.

Miss Carrie Lyons of Columbus, who has been visiting friends here for several days, has returned home.

Have you noticed that where the hay is cut late the farms are always weedy, because the weeds ripen and the seeds fall before the grass is cut?

Half-Sick

When your nerves are weak, when you are easily tired, when you feel all run down, then is the time you need a good strong tonic—Ayer's Sarsaparilla. Your doctor will tell you why it has such power over weak nerves, why it makes the blood rich, and why it gives courage and strength. Ask him if it is not just the medicine you need.

LEGAL NOTICE TO BIDDERS.

Sealed bids will be received by the Board of Public Safety of the City of Newark, State of Ohio, at the office of said Board (Council Chamber) until 12 o'clock noon, Thursday, September 13, 1906, for furnishing the necessary labor and material for building a Fire Department, according to the plans and specifications on file in said office.

Each bid must contain the full name of every person or company interested in the same, and be accompanied by a bond in a sum equal to ten per cent of the bid, to the satisfaction of the Board, or a certified check on some solvent bank, as a guaranty that if the bid is accepted, a contract will be entered into and its performance properly secured. Should any bid be rejected, such check will be forthwith returned to bidder, and should any bid be accepted, such check will be returned upon the proper execution and securing of the contract.

Bidders are required to use the printed forms, which will be furnished on application.

The right is reserved to reject any and all bids.

By order of the Board of Public Safety.

GIRL WHO ORGANIZED QUAKE AMBULANCE CORPS.

Philadelphia, Aug. 28.—When the news was cabled from Valparaiso that a Chilean girl had organized the ambulance corps for relief work in the devastated city many Philadelphians who had known Bianca Hillman during her residence here remembered a most attractive young woman and wished her all success in her work.

Miss Hillman was graduated from the Woman's Medical college of this city, with the class of 1905. She came from Santiago, state of Santiago, about eight years ago and entered a seminary at Rye, N. Y., study-

she was a student at the college, two immense negroes had endeavored to hold her up. At the time the young medical student was taking a stroll with her fox terrier, Sport, in North College avenue. On coming to the dark portion of the street two negroes jumped upon the defenceless woman and bore her to the ground. The little fox terrier attacked them and made things so unpleasant around their shin-bones that they let go of the woman and started to run.

On being released Miss Hillman grappled with the two men and held them until she had given them a certain lecture on the evil of their ways, after which she made them accom-

THE ROAD TO HEALTH

Is worth more than all the wealth you can possess. If you are bothered by indigestion and 95 per cent of all human ills are caused by indigestion, take DR. JACKSON'S DIGESTIVE AND LIVER POWDERS—they are guaranteed to cure indigestion, Rheumatism, Heartburn, bloating after eating, Dizziness, Neuralgia and removes that sour gas from your stomach. DR. JACKSON'S POWDERS are put up in this form so that they digest as soon as they reach the stomach and give immediate relief. No pills, tablets or capsules will digest in a weak stomach, the organs being too weak to dissolve the food, let alone the medicine put up in this form. We have thousands of testimonials in our office of people who have taken our remedies and have never had a complaint or one box returned.

ANECDOTE TOLD BY THE PRESIDENT

In His Letter of Congratulation to the New G. A. R. Commander, Gen. R. B. Brown.

Zanesville, O., Aug. 28.—General R. B. Brown, who was recently elected commander in chief of the Grand Army of the Republic, has made public a large batch of correspondence of a congratulatory nature among which was a letter from President Roosevelt, one from Senator Foraker, and another from former Governor Herrick. Senator Foraker, remembering General Brown's editorial assistance in years past, states he would rather General Brown had received the honor than any other soldier that he knows. President Roosevelt's letter contains a pretty sentiment and is as follows:

"My Dear Commander in Chief: Let me send you a word of sincere and hearty congratulation upon your election as commander in chief of the Grand Army. As you were yourself in the ranks, perhaps the following anecdote may amuse you. I made my old commander in the cavalry brigade, General S. B. M. Young, lieutenant general, and when he retired I appointed to succeed him General Adna F. Chaffee, with whom I also had the good fortune to serve in the Santiago campaign. Both of them had begun their careers as private soldiers in the

Civil war, and on the day when General Chaffee took office and was formally presented to me General Young sent him his own lieutenant general's stars with a memorandum that they were from Private Young to Private Chaffee.

"Our country is a pretty good country, after all, isn't it? With all good wishes and trusting to have the pleasure of meeting you personally in Washington this winter, I am, sincerely yours,"

"Theodore Roosevelt."

ADmits SHOOTING PLEA NOT GUILTY

J. HUGHES EXPECTS TO BE SET FREE AT THE TRIAL IN PORTSMOUTH.

Details of Domestic Affairs Show a Woeful Disregard of the Marriage Laws.

Portsmouth, O., Aug. 28.—Though Jared Hughes, the young showworker, who killed his wife and her paramour at their trysting place Sunday night, made a confession yesterday as telegraphed the Advocate, he pleaded not guilty when arraigned on the charge of murder.

He claims that Harry stood between a reconciliation with his wife, and he decided to kill both. He told his story calmly and expects to be acquitted.

Fuller details of the domestic affairs of all the parties show a most woeful disregard of the marriage laws. Harry had a wife and several children living on a nearby Kentucky farm. Shortly after he had formed the acquaintance of Hughes' wife he persuaded her to go to Iron-ton with him, and they lived together there. They came back here a month ago, and ever since courted the vengeance of the woman's husband by their unconcealed relations.

While Hughes had made several attempts to see his wife, he, too, apparently was guilty of attentions to other women. A diary which he kept is now in the hands of the police, and it shows that his meetings with other women were of almost nightly occurrence. His first move after Sunday night's tragedy was to repair to the home of Jessie Rockwell, and to her he related details of the shooting. He wanted her to swear that he was at her home all evening, but the girl became afraid and told her parents. They in turn notified the police, and this was the entering wedge toward securing Hughes' confession.

Because of the prisoner's conduct, both before and after his separation from his wife, it is believed his plea for acquittal can be fiercely contested by the state.

Despite the fact that Harry's wife had been living apart from him, she made her appearance at the morgue yesterday and, with loud lamentations, she and his other relatives took charge of his body. Its burial will take place at Shultz, Ky. The sorely grieved relatives of the woman took her remains to Lucasville for interment today.

SHOCK TO WIFE

Was the Summons for Divorce From the Husband Who Went West to Begin Life Anew.

Kokomo, Ind., Aug. 28.—Kokomo society circles were given a surprise when they learned that Howard H. Leach, former president of the Gas Belt Racing circuit, the only son of John M. Leach, a wealthy manufacturer of this city, had made application for a divorce from Myrtle H. Leach of this city, in McCook county South Dakota.

Leach left Kokomo one night last November. He went away on the eve of the dry his wife was to give a New England dinner to the "Symposium," (the most fashionable ladies' club of the city). He told Mrs. Leach, it is said, he was hopelessly burdened with debt, that his father had refused to come to his assistance, and that he had decided to go away and begin life anew. He said he would return for her as soon as he got settled in the West.

She accompanied him to the train and they had an affectionate parting. She never heard from him it is said, until yesterday when she was served with a summons to answer his complaint for divorce.

After his departure she went to live with her parents. She would not give up her handsome home, leaving all the furnishings in place and simply locking up, hoping he soon would return and join her.

Leach's complaint alleges that Mrs. Leach nagged and humiliated him in the presence of his friends; that she insisted on living beyond their means and then when he could not gratify all her whims she acquired an aversion for him and threatened to leave him. Mrs. Leach, through her attorneys, has announced that she will resist the action. It is intimated that she will file a cross-complaint containing sensational averments.

MISS MARIE CAHILL "ROASTS" JOHN D.

SAYS SHE HAS NOT AND WILL NOT ASK OIL MAGNATE FOR CONTRIBUTION.

Moreover Miss Cahill Declares She Would Not Accept a Cent from Rockefeller.

New York, Aug. 28.—Marie Cahill says that John D. Rockefeller is an "Indian giver," and she denies in vigorous language that she ever solicited or caused to be solicited from Rockefeller assistance for her projected home for chorus girls, to be called the Mary Anderson Guild. A dispatch from Cleveland Monday stated that Mr. Rockefeller had decided to donate \$100,000 for the

Miss Marie Cahill

foundation of such a home, provided Marie Cahill raises a similar amount.

Yesterday Miss Cahill discussed the matter in her usual trenchant way. "I have not solicited, caused to be solicited, nor will I ever ask or accept money from John D. Rockefeller for any purpose, charitable or otherwise," she said, "even though he should so far forget himself as to offer it without an almost impossible condition attached. I look on the money of which he is the careful possessor as secured by non-ethical means."

"I wish to resent most vigorously what I consider an unwarranted application of a systematic scheme of publicity to popularize an unpopular man to my humble attempt at doing something for my own people. My plan for the Mary Anderson Guild has not met with the progress that I had anticipated, due to the fact that I have been busy earning my living and also to the fact that I have been unable as yet to acquire the necessary funds for such a project. Could I, however, get \$100,000 for the purpose I would not need Mr. Rockefeller's money."

"Should it all be true, however, and should Mr. Rockefeller make such a proposition I will take much pleasure in refusing it. With all due respect to Mr. Rockefeller's millions, I think he is the original 'Indian giver' anyway. If he gave the money for the purpose the price of oil would probably go up for a few days."

He Was in Trouble.
"I was in trouble, but found a way out of it, and I'm a happy man again, since Dr. King's New Life Pills cured me of chronic constipation," says E. W. Goodloe, 107 St. Louis St., Dallas, Texas. Guaranteed satisfactory. Price 25c at F. D. Hall's drug store.

THIEVES MAKE BIG HAUL

How many times have you seen the above headline, or a similar one, in your daily newspaper? Pretty often, for the danger of loss by burglary or theft is an ever present one. In two recent months the number of burglaries and robberies in eight cities was 2475—over 40 each day. These have occurred in Newark within the last week. These figures show the alarming frequency of such affairs. Often the articles taken are heirlooms, valuable jewels or plate, and the loss is a serious one. The summer vacation is upon us, and sneak thieves are busy with their deceptions. Think how much better you would feel you could go away with the knowledge that if your house SHOULD be robbed in your absence some one would make good your loss. You can procure that feeling of absolute security for only \$12.50 per year. May our representative call? The Buckeye Insurance Agency Company, 10 N. UNKNOWN MAN

Who Was Killed by Train at Union Station Brought Here for Burial Monday.

The remains of the unknown man who was killed by a Panhandle train at Union Station Monday was brought to the I. A. McConaghe morgue at this place Monday night after having lain in the heat of Monday from shortly after 8 in the morning, the time of the accident, it is supposed, until 5 o'clock in the evening. Owing negli-

gence, the coroner was not notified until about 1 o'clock in the afternoon. The stranger was aged possibly 35 years, was about 5 feet and 8 inches in height, and of light complexion. He was slightly bald and had rather small features. When found, the man was dressed in a brown coat and dark trousers and wore a light hat.

He is believed to be a tramp who was riding the train and in some manner lost his hold falling beneath the wheels where his body was completely cut in two. The remains were buried Tuesday forenoon as their condition, due to the weather and exposure, was such that they could not be held longer to await identification.

HIGHWATER.

The basket meeting at the Liberty chapel last Saturday and Sunday was a success.

Quite a number of our young ladies are attending the teachers' institute at Newark this week.

There will be a meeting at Union chapel next Sunday, September 2 at 11 o'clock. Everybody invited.

The community regrets the departure of Mr. and Mrs. Wenger. They were highly respected residents and Mrs. Wenger will be greatly missed with regard to her church work.

The Masonic picnic was rather disagreeable on account of the inclement weather.

Miss Pearl Hausholder is visiting Mrs. F. H. Barber.

COUNTY FAIR

There is a possibility that people this year at the county fair may see aerial navigation up to date.

The thinking world concedes that it is one of the probabilities of the near future. In all civilized countries more or less successful attempts have been made to solve the problems of the air.

It remained in this country for Baldwin and Knabenshue to keep the country abreast of the times. Though aerial navigation is in its experimental stage, the Knabenshue ship has advantages over anything of the kind yet attempted. Untold thousands in the eastern cities and in the middle and western states have seen the Toledo boy make ascensions.

Have seen him rise from the ground and with perfect control of his machine make his way at will against adverse currents and after describing a route announced before return to his starting point and settle safely to the earth. It may be years, many of them, before passengers are carried over a route whose ballast is south wind, but the airship of Knabenshue carries him at his will within easy limits.

He may be here at the Newark fair.

At a meeting of the Licking County Agricultural board held at Buckeye Lake Saturday, August 25, steps were taken looking to an exhibition of the airship here on occasion of the county fair. A committee of one was appointed to confer with the manager of Mr. Knabenshue and if possible secure him for a flight of his airship one day during the continuance of the fair, or more if possible.

The present management intends to keep abreast of the times and give the people what they pay for. It is a progressive board.

A FACT PROVEN.

Should Convince Even the Most Skeptical of Its Truth.

If there is the slightest doubt in the minds of any that Danibull seems to exist, their belief is compelled by the fact that a rabbit inoculated with the germ became bald in six weeks' time. It must be apparent to any person therefore that the only prevention of baldness is the destruction of the germ, which act is successfully accomplished in one hundred per cent of cases by the application of Newbro's Hair-Prep. Danibull is caused by the cyste germ which causes baldness and can be prevented with the same remedy—Newbro's Hair-Prep.

Happiness in a Grain of Wheat

It Contains Every Food Element Necessary for Man's Sustenance.

All authorities agree that fourteen elements are needed in the human body to sustain perfect health and that these must be supplied in the food taken into the system. Nature has provided us with one single article of food containing all of these fourteen elements in the exact proportions necessary to supply our bodies with vitality, strength and heat. This food, so wonderful in its composition, is wheat, and intelligent men and women are coming to realize more and more that in the whole of the wheat is found the secret of health and happiness. Rich in the nitrates, or muscle-making elements, the carbonates, or heat-producing elements, and the phosphates, or brain and nerve-making elements, the whole grain of wheat supplies every necessity for man's body and mind.

This is how Malta-Vita came to be known as "The Perfect Food," for Malta-Vita is simply the whole of the wheat and a little salt, thoroughly steamed and cooked in absolute cleanliness, then mixed with pure barley malt extract, which converts the starch of the wheat into maltose, or malt sugar, an easily digestible agent and very nutritious food.

All grocers sell Malta-Vita. Large package, now 10 cents.

POLICEMEN

Sent to Jail on Charge of Murder to Await Inquest Into Death of Herbert Gowland.

Pittsburg, Aug. 28.—David Bowles, the policeman who shot and killed Herbert Gowland while the latter was running away to avoid arrest for corner loading, was committed to jail on a charge of murder to await the inquest into Gowland's death. Mayor George W. Guthrie was loth to discuss the affair, but said orders would be issued prohibiting young and inexperienced officers from carrying firearms. In the future they will do duty with their maces as their chief weapon and will be stationed in quiet sections of the city.

ALMOST AS HIGH AS WEATHER VANE

NEW SKYSCRAPER WILL BE 118 FEET ABOVE THE STREET LINE WHEN FINISHED.

Remaining Steel Work Will Be Hoisted, Now That New Steam Boiler Has Arrived.

The Newark Trust company's new building is being erected with precision and care, and now that a part of the steel framework of the sixth story of the structure has been placed some idea can be obtained of the appearance, or at least the height, of the new building when completed, when it will be but 30 feet lower than the top of the weather vane on the court house, or in other words, 118 feet from the street line.

The placing of the steel frame work up to this point has been to some extent delayed owing to the fact that the steam boiler for hoisting the immense girders into place had not arrived. It came, however, Tuesday, and the remainder of the steel work will be hoisted into place, beginning Wednesday. The first three stories, including the floor to be occupied by the Trust company, and the one above it, have already been faced with terra cotta and the six stories above will be faced with pressed brick, the interior being lined with fire proof, hollow tile from the Haydenville mines. All of the steel pillars on the inside will be surrounded with gas pipes and electric wires in fire proofing. Even the furniture in the offices of the company on the first floor will be of material which is fire proof. The floors of the structure are of a design known as "reinforced" flooring, composed of heavy wire mesh and steel rods interwoven.

The main entrance and the interior of the first floor is designed to be especially beautiful and impressive, the entire space to be treated in marble wainscoting, and bronze finished fixtures. The stairway, near the double elevator shaft, will be finished in marble, while all of the floor will be of tile and marble.

The details of the furnishing of the interior of the building on the first floor have not yet been completed.

AUGUST RAINFALL

Attracting Attention of Meteorologists Unprecedented Throughout East and the South.

Washington, Aug. 28.—Unprecedented rainfall throughout the east and south is interesting the meteorologists of the United States, but thus far they have not found a satisfactory answer to scientific inquiries as to the cause. The average rainfall for August in the vicinity of Washington heretofore has been less than four inches, but thus far this month more than 12 inches have fallen. Professor Edward B. Garriott, one of the official forecasters of the weather bureau, said: "The rainy season has been a reversal of the general distribution of barometric pressure."

W. I. Haynes, official at Newark, says it is out of the city this week for much needed rest.

ASKED TO CALL MARGINS GAMBLING SUM OF THIRTY THOUSAND INVOLVED SENATOR OVERMAN ADMINISTRATOR

Senator L. S. Overman of North Carolina.

New York, Aug. 28.—Interests adverse to Senator L. S. Overman, of North Carolina, are seeking to have his administration of the estate of J. B. Lanier, who died in New York more than ten years ago, reviewed by the courts, that \$30,000 paid by the Senator, as administrator, to the firm of Rountree & Co., cotton brokers, may be recovered for certain creditors and relatives of Mr. Lanier in North Carolina.

Senator Overman, who is a lawyer of great reputation in his own state, was elected to the United States senate in 1902. His term will expire in 1908. He was made administrator of his friend Mr. Lanier. Among the debts presented for settlement was one for \$30,000, alleged to be due Rountree & Co. for notes passed by Mr. Lanier to the firm in a cotton deal. Creditors in North Carolina were forced to take fifty cents on the dollar, it is alleged, because of the inroad made upon the estate by the payment of this claim.

Relatives of the dead man join with the creditors in the effort which they are about to make to have the courts here and in North Carolina declare the payment illegal on the ground that the notes were given for the purpose of dealing on a margin which it is said

under the North Carolina law is construed as gambling. It is held that the administrator had no right to pay out a gambling debt as against other creditors. The center of the agitation is Salisbury, the home of Senator Overman.

Four prominent law firms have been retained by the creditors and members of the family of Mr. Lanier, and arrangements have been made to have a hearing in this city. L. H. Clement of Salisbury, came here this week to conduct the examination in the interest of Senator Overman and R. H. Rountree & Co., successors to the original firm of W. B. Rountree & Co. The sudden death of Albert L. Rountree, a member of the firm, put a temporary stop to the proceedings. Mr. Rountree knew the details of the transaction and was a most important witness.

It is argued by Senator Overman and the Rountrees that cotton operations, even on a margin, have been held to be legitimate transactions. They say the position of the contestants is untenable. On the other hand, the contestants assert that the matter is still open for review on account of the delay in settling up the estate and fixing the final accounting which was done recently.

the cause of the labor organizations. "When you have a study old fossil," said Professor Zueblin, "put him up so that everybody can see him. The opposition of Mr. Parry and his co-workers will benefit the labor organizations through revolutionary reaction. The Employers' Association, which is itself an organization no less than that of the laboring men, has the audacity to say to the laboring men: 'We won't deal with you as an organization, but as individuals.' Think of an organization that denies the right of men, with whom it is dealing directly, to organize."

SEVEN DIE SUDDENLY.

Mt. Vernon, Aug. 28.—The death rate here yesterday was alarming. Mrs. A. B. Lindsay of Hoboken, Pa., visiting her son, died very suddenly. The other deaths were those of Mrs. Mary Keef, Frank McElroy, Michael Taylor, Mrs. Joseph Leady, Mrs. Laura Thompson and Wilber Butler, a peculiar coincidence being that all died suddenly.

CHICAGO UNIVERSITY MAN GIVES ADDRESS ON "WEALTH" AT RICHMOND.

Makes an Appeal for Wage Earners' Privilege to Unite For Their Interests.

Richmond, Ind., Aug. 28.—Professor Charles L. Zueblin of Chicago University, in his address last evening before the Richmond Chautauqua on the subject of "Wealth," made a strong appeal for wage earners' privilege to organize in the face of organizations of capital and organizations of employers. He said that the work of D. M. Parry of Indianapolis, and other leaders in the Employers' Association movement was, in reality, doing much to further

COVEY OF QUAIL SCARED HORSE

REES JONES AND THOS. MCKINTY THROWN FROM BUGGY OVER FENCE.

Real Estate Man Painfully Hurt, While Companion's Ankle Was Badly Sprained.

Rees R. Jones, the real estate man, appeared at his office late Monday carrying a cane and bearing every evidence of having passed through some serious calamity. The fact is, Mr. Jones had a very narrow escape from injuries that might have been fatal. While driving in the country about three and a half miles southwest of the city Sunday, Mr. Jones' horse became frightened at a number of quail which flew up in front of it, and began kicking and running. The frightened animal ran against a wire fence and, kicking the buggy loose threw Mr. Jones and his companion, Mr. Thomas W. McKinty, over the fence. Mr. Jones had his right leg badly cut from the knee down, where the frightened horse kicked him, and was otherwise terribly bruised and cut, while Mr. McKinty sustained a sprained ankle and a few other bruises on the arms. Both men were unable to regain their feet for several minutes after the accident, but finally managed to reach the interurban car track, where they signaled a car and were brought to the city. The horse continued running until it had passed Idlewild park before it was caught.

STILL GROWING IS 'PHONE EXCHANGE

Independent Company Issues Supplementary List of Subscribers—New Cables Strung.

The Newark Independent Telephone company is today sending to its subscribers a supplement to the February directory, containing about 350 new names together with a list of changes and corrections.

The growth of this company's exchange has been remarkable. A year ago the wires, cables and switchboards were crowded to their full capacity and it became necessary to enlarge the plant in order to supply the demand for 'phones. New cables have recently been strung to every section of the city and additional sections of the switchboard have been installed. These cables are now being connected with the central office and the west end of the city is now "cut in." Subscribers in that section of town who have been waiting for service for a year are now being accommodated. Other parts of the city will be connected as soon as possible. The local company now has nearly 2500 telephones in service and it also gives connection with at least 2,000 telephones in the different townships in the county outside of Newark.

ROY INCENDIARY.

Mason, Aug. 28.—"I like to see 'em burn," was the sole remark of Frank Roy, aged 12 years, son of Dr. Roy, a crookeryman of this city, when arrested for incendiarism. He admitted that he set fire to the barns of J. B. Bolander and Laura Clendenan. The loss will reach several hundred dollars.
